- A. If construction of a new residence is required due to loss by fire, storm, teardown or accident, the owner shall begin construction no later than six (6) months following the date of loss. FPCC shall have the right and authority to extend this time for good and sufficient reason.

- B. Construction of any Structure or improvement, or alteration to the exterior of any Structure or improvement, excluding general upkeep, shall not commence on any lot or building site in Section Two B prior to plans for such construction having been submitted by the property owner in writing to, and approved in writing by the FPCC.

The FPCC shall approve any proposed improvement of a Primary Structure upon determining that such improvement will comply with the provisions of these Restrictions; that the improvement will conform to the appearance of the surrounding areas of Section Two B as a whole; and that the appearance of the proposed improvement will be in harmony with the surrounding areas of Section Two B, including location with respect to topography and finished grade elevation. The FPCC shall approve any proposed improvement of a Secondary Structure upon determining that such improvement is being constructed in compliance with these Restrictions, and is located within the Building Lines, or Property Lines, as appropriate, as set forth in Section III. Approval of any proposed improvement shall not be unreasonably withheld.

Any errors in or omissions from the plans and specifications submitted to the FPCC shall be the responsibility of the owner of the lot to which the improvements relate. FPCC shall not be responsible for errors in or omissions from any such plans and specifications. The property owner is, nevertheless, required to comply with these Restrictions and all applicable local, state, and federal rules and regulations. All submissions to the FPCC must be sent via a method that confirms receipt by the FPCC. The FPCC may require submission of additional plans, specifications, or other information before approving the plans. The FPCC will approve or disapprove the plans by certified mail within 30 days unless the FPCC notifies the owner in writing that the time for approval or disapproval has been extended (such extensions not to exceed fifteen (15) calendar days), and gives the reason for the extension. In the event that approval or disapproval has not been received by the homeowner within thirty (30) days, then the plans will be deemed denied.

- C. After approval of any proposed improvement, the proposed improvement shall be accomplished as promptly and diligently as possible, and in strict conformity with the description of the proposed improvement in the materials submitted to the FPCC. Failure to complete the proposed improvement within nine (9) months after the date of approval, or such other period of time (or extension of time) as designated in writing by the FPCC, or failure to complete the improvement in strict conformity with the description and materials furnished to the FPCC, shall operate to automatically revoke the approval by the FPCC of the proposed improvement. No improvement shall be deemed completed until the exterior fascia and trim on the structure has been applied and finished, all construction materials and debris have been cleaned up and removed from the site, and all rooms in the improvement, Building, or Structure (other than attics) have been finished.

RP 007-16-2723

- D. If, as a result of inspections or otherwise, the FPCC finds that any improvement has been constructed or undertaken without obtaining the approval of the FPCC, or was not completed in strict conformity with the description and materials or plans and specifications furnished by the owner to the FPCC, or has not been completed within the required time period after the date of approval by the FPCC, the FPCC shall notify the owner in writing of the noncompliance (“Notice of Noncompliance”). The Notice of Noncompliance shall specify the particulars of the noncompliance and shall require the owner to take such action as may be necessary to remedy or remove the noncompliance within the period of time set forth in the Notice of Noncompliance.

If the FPCC finds that a noncompliance continues to exist after the time period stated in the Notice of Noncompliance, FPCC is authorized to record a Notice of Noncompliance against the lot on which the noncompliance exists with the Harris County Deed Records and with the City of Houston Permitting Department. At such time as the property owner provides evidence of the Noncompliance having been resolved, the FPCC will promptly act to have any recorded notices nullified. FPCC may collect all charges, filing fees or attorneys fees associated with the Notice of Noncompliance from the lot owner.

V. BUILDING MATERIALS & GUIDELINES FOR NEW CONSTRUCTION/REMODELING
